

Wednesday • Commute

Be as late
as
possible!

It's Wednesday, so it's time to go LIVE! But first, the individuals who go live must become going to the place in which they end up being live.

Doug and Sam are on opposite sides of town, and must get to the studio (★) at the same exact time (or else their keys to get in don't work.) Doug is driving a car and Sam is sprinting on foot, so Doug is faster. The LATER the BETTER!

Rules:

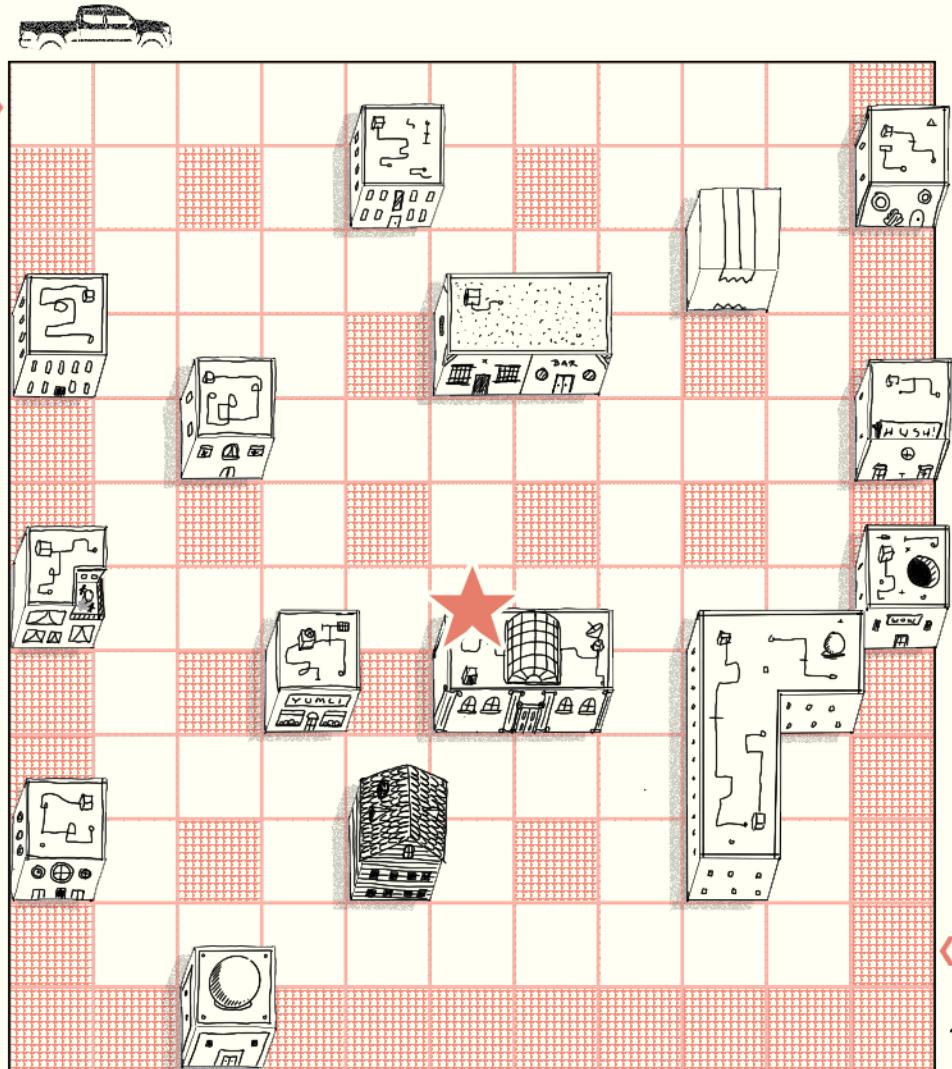

- Doug and Sam must get to the studio ★ at the same time (same number of moves).
- Doug's car moves twice as fast (takes up two tiles) and can't do 180's.
- Doug can't drive on grass.
- No one can pass through buildings.
- Paths can't overlap (snake style) until the goal ★.
- No diagonal moves.

 Grass, on which Doug can't drive.

 Cars & people share the road.

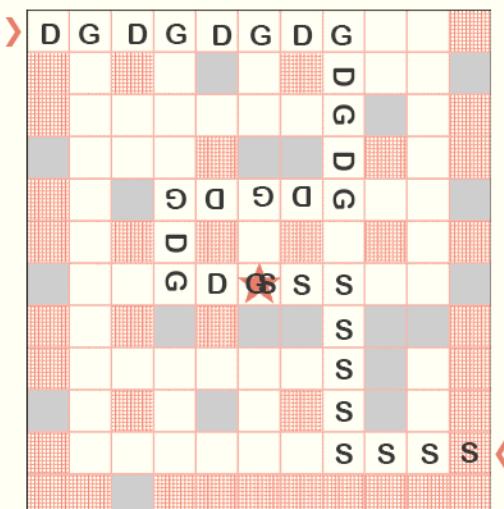

Doug ➤

➤ Sam

Example Solution:

Being The Best:

The example to the left shows the **fastest** solution, which is 10 moves. This means Doug and Sam got to the studio at 8pm—**TOO EARLY!**

The later you get the better. If you really need to, you can think of each move as taking 10 minutes:

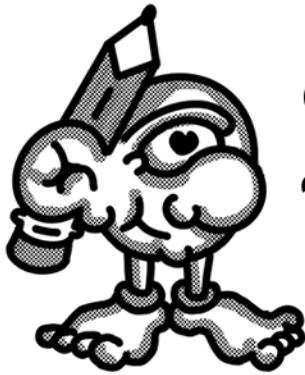

10 moves = 8:00pm

12 moves = 8:20pm

14 moves = 8:40pm

etc.
